

FOR IMMEDIATE RELEASE

## VUE Compensation Management Now Certified Compatible with Microsoft SQL Server 2008 R2

Coconut Creek, FL, 2/23/2010 - VUE Software today announced that its flagship product, VUE Compensation Management, is now compatible with Microsoft SQL Server 2008 R2. VUE Compensation Management used in conjunction with Microsoft SQL Server 2008 R2 empowers insurance organizations to organize and streamline complex commission and incentive programs.

"Microsoft SQL Server 2008 R2 provides a host of benefits in connection with VUE Compensation Management" said Joseph Westlake, Vice President at VUE Software. "Instant access to qualitative data is the key in a progressive business environment to make more informed business decisions in near real-time. Our solution combined with the strength of the Microsoft platform, delivers the capability and performance needed for organizations to mine large amounts of data for real business insight."

With Microsoft SQL Server 2008 R2, organizations benefit through advanced technologies that minimize server downtime, speed up recovery and ensure appropriate levels of server availability. Microsoft SQL Server 2008 R2 provides a comprehensive data platform and includes technologies to scale-up individual servers and scale-out very large databases, along with tools to optimize performance.

VUE Compensation Management is a leading insurance industry-focused commission and incentive management system, designed to meet the needs of insurance carriers, large agencies, brokerages, and third-party administrators. Clients of the solution can intuitively design, manage, and track effective incentive programs and produce powerful reports - ensuring confidence in compensation metrics, and reducing reliance on IT. Together with Microsoft SQL Server 2008 R2, VUE Compensation Management delivers a comprehensive business intelligence solution designed from the ground up to meet the needs of insurance organizations of all sizes.

As a Microsoft Gold Certified partner, CSSI has always shown commitment to the Microsoft platform. VUE Compensation Management is also compatible with Windows Server 2003, Windows Server 2008 R2, Windows 7, Windows Vista and Windows XP.

### About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software's solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance. For more information about VUE Software, please call 1.877.4.VUESOFT or visit [www.vuesoftware.com](http://www.vuesoftware.com).
