VUE Software Announces Momentum in the Marketplace for VUE IncentivePoint

Coconut Creek, FL, 12/1/2009 - Computer Solutions and Software International, Inc. (CSSI), parent company of VUE Software®, today announced that the company is seeing a high level of interest in the insurance industry for the company's VUE IncentivePoint solution, launched in Fall 2008. VUE IncentivePoint successfully delivers sales performance management functionality by integrating VUE Compensation Management and Microsoft Dynamics CRM. By securing its largest account to date on the solution, VUE Software is announcing high momentum for VUE IncentivePoint within the insurance and health plan markets. Additionally, with the recent certification as compatible with the Windows® 7 operating system, the solution offers a robust and reliable operability.

Providing an unprecedented unity between the carrier, agency and producer, VUE IncentivePoint is a highly valuable tool for insurance organizations, especially MGAs. The solution helps to manage quotas, territories and incentives for complex distribution channels. Using the dual capability of VUE IncentivePoint and CRM, companies can easily manage their leads and customer pipeline to analyze sales performance. By leveraging historical data for accurate forecasting and budgeting, the solution makes it easier to monitor sales plans in real time and align them with business objectives. Additionally, producers are motivated to perform through improved communication and access to advanced technology tools for higher sales productivity.

"We are excited about the growing interest in VUE IncentivePoint," said Joseph Westlake, Vice President of VUE Software's parent company, Computer Solutions and Software International (CSSI). "Our market success is a validation of the need for an end-to-end solution for insurance organizations to manage their distribution channels. VUE IncentivePoint is the first solution of its kind to utilize Microsoft Dynamics CRM as a platform for streamlining all aspects of sales performance management for insurance organizations."

About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software's solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance.
