VUE Compensation Management 6.0 Now Available

New Version Includes Advanced Functionality and Enhanced User Interface

Coconut Creek, Florida, 8/20/2008 — VUE Software, a company devoted to developing technology solutions for the insurance, healthcare, and construction industries, today announced the release of a new version of its flagship solution, VUE Compensation Management.

The new release, VUE Compensation Management 6.0 (VUE 6.0), features a fresh, newly-designed interface. Improvements such as enhanced reporting and analytical capabilities have been made to the product's core feature set, which includes a sophisticated compensation engine, powerful hierarchy support, and flexible adjustment ability like advancing and retroactivity.

In honor of the VUE 6.0 launch, VUE Software is also refreshing the look of its website. The newly designed website includes information on the available solutions, free industry-specific whitepapers, and registration for an interactive product tour.

VUE 6.0 is currently available, and the new website will launch in early September.

About Microsoft

Founded in 1975, Microsoft (NASDAQ "MSFT") is the worldwide leader in software, services and solutions that help people and businesses realize their full potential.

About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software's solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance.
