

FOR IMMEDIATE RELEASE

VUE Compensation Management Receives Certification to Run on Latest Microsoft Platforms

VUE Software Again Earns the Microsoft Partner Program ISV/Software Solution Competency

Coconut Creek, Florida, 3/17/2008 — Computer Solutions & Software International, Inc. (CSSI), today announced that VUE Compensation Management has completed testing for Microsoft certification in ISV/Software Solutions. VUE Software is now certified for Windows Vista and Windows Server Platforms.

The certification process, conducted independently, helps developers prepare and test their applications to meet the high standards Microsoft has set for compatibility. Each certification program offers ISVs the opportunity to assure customers and partners of the quality and cohesiveness of their products.

“This achievement validates our development expertise and represents our continued commitment to our overall partnership with Microsoft” said Stephen Bruno, President and CEO of CSSI.

This certification represents VUE Software’s ongoing commitment to customers. It allows for the continued evaluation and deployment of VUE software with certainty that it is designed to run on the most popular operating system produced today -- Microsoft Windows. This achievement also qualifies CSSI for Microsoft’s independent Software Vendor competency, a designation CSSI has maintained for more than five years.

About Microsoft

Founded in 1975, Microsoft (NASDAQ “MSFT”) is the worldwide leader in software, services and solutions that help people and businesses realize their full potential.

About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software’s solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance. For more information about VUE Software, please call 1.877.4.VUESOFT or visit www.vuesoftware.com.
